## Anglo American Surrounds the Bulago EL with an EL Application

Frontier Resources Limited (**Frontier**) is pleased to announce that major mining company Anglo American has applied for an Exploration Licence covering approximate 2,400 sq km area and that surrounds EL 1595- Bulago.

Frontier's Chairman and Managing Director Peter McNeil said:

*The plan below (from the Mineral Resource Authority website) shows that Anglo American applied for a new EL Application mid-June 2017; this demonstrates that the Bulago Region and Hela Province in PNG have very high geological prospectivity. The Tinga, Baia and Cecilia blocks of the Muller EL can be seen in the plan to the south of the Application.*

*I will commence a discussion with Anglo to determine if they are also interested in a possible Joint Venture for the Bulago and Muller Regions and resume discussions / organise for a field trip with the other two major mining companies that have undertaken due diligence so far. Anglo are active in PNG in the Star Mountains JV with Highlands Pacific (located to the north of the Ok Tedi Mine), where they have recently assumed operatorship after expending US \$25M to earn 15% equity.*
