## **Gazelle EL Application 2529 Lodged (Again) with MRA**

Frontier Resources Limited (**Frontier**) announces that it has lodged a new EL Application yesterday afternoon for part of the Gazelle Peninsula of East New Britain (including the former Sinivit mine area), with the Papua New Guinea Mineral Resource Authority. The Application is now second in line, after Munga River Ltd a PNG – Mt Hagen registered company lodged behind Frontier last December 16th.

Frontier's 'previous' Gazelle EL Application 2515 was refused granting by the Minister upon the recommendation of the Mining Advisory Council. Landowners had agreed to Frontier, exploration and the EL at the Warden's Court Hearing. In addition, the Company's proposed exploration and Pre-Feasibility Studies /program was comprehensively stated at K1.5million committed per year.

Chairman and Managing Director Peter McNeil said, "*I don't understand why Frontier's initial application was rejected. The entire process was very rapid and took only 4.5 months to complete, not a year, including over the Christmas period. I hope the next applicant will be refused grant rapidly and then the MAC /new Minister will reconsider and grant EL 2529 to Frontier. I intend to talk to the Sinivit landowners and see what they think about the situation.*"

For additional information please visit the website at [www.frontierresources.com.au](http://www.frontierresources.com.au).
